	<p>White coated cardboard White cardboard coupled with semi-gloss white paper on one side and white polythene paper on the other side. It has good flatness and is waterproof. Particularly suitable for closing frames on the back. In fact, the cardboard does not absorb the humidity of the wall on which the frame is hung, and therefore does not swell or wavy.</p>			mm 0,5	350	72x102	50sheets	1,10	10	10%	50	15%	200	20%	4355
